STORY TELLING

"Story telling is the most powerful way to put ideas into the world today"

-Robert Macece

Telling stories is also the best way to help children view the mundane in a different & interesting way.

Stories excite the imagination and plays a crucial role in developing our child's social & emotional skills. It was a priceless moment when the whole TIPS Team witnessed our children's narration of the moral stories without the fear of being judged or criticized.

Our little buddies enjoyed to converse, makeup & tell stories to others. They proved that stories play a crucial role in developing our children's public speaking, confidence, and overall personality.

Our kids excitement was well seen in the way they got dressed up into story characters and through their body language and expression. Properties used by our kids to narrate their stories found to be really eye catching.

Health & Beyond

"Health is the greatest gift, contentment the greatest wealth, faithfulness the best relationship"
-Buddha

Health is important to live life to the fullest. When a person leads a healthy lifestyle, the body remains healthy and the mind is active and fresh. Having good health is of core importance to human happiness. Sandwiches have the ability to bring together some of our most loved foods by uniting bread, cheese, meats, veggies and condiments. Our tiny chefs made a delicious crunchy cheesy sandwich and cherished the moment.

Our little chefs got fully involved to turn all the ingredients into a tasty Mexican Breakfast recipe "Hash Browns". Children usually love potatoes...when it is mixed with few more interesting ingredients & added with fried potatoes that make our little ones to get watery mouth to taste this yummy patties.

"Your body holds deep wisdom. Trust in it. Learn from it. Nourish it! Watch your life transform and be healthy.

- Bella Blevé

Parent Chronicle

It was a fang-tastic experience being a part of Halloween Day celebration at TIPS KG . Yeahh we were invited as Vampire and Witch to enjoy with the spooky little kids. Halloween is a time for costumes, spooky stories and Trick or Treaters. Our diversity is something worth celebrating and it's that one spooky day a year where we remember to mark the victory of good over demonic spirits.

Dr. Karthikeyan & Dr. Priya
Parent of Dhruv & Dhwith

The Haunting music, Dim lights, Pumpkin lanterns and scary cut outs adorning the campus made an Eerie introduction to the day. There were little Vampires, Witches, pump-kids and other creepy characters walking around the campus. It was cheering to see the teachers decked up in ghostly attires. We were literally thrilled to perform the Halloween song and elated to see the kids shaking their legs to our spooky song. Kids were super excited in finding out who is who under that costume. On top of everything, their spooky dress parade Boo!! It was mind blowing and best of all the party that ended the day. We left the school happily and murmuring TRICK OR TREAT.

We would like to thank Mrs. Sangeetha ma'am Coordinator, TIPS KG Campus for this wonderful opportunity and congratulate all the entire staff for their efforts and dedicated participation in all these special occasions

Budding Influencer

Yoga builds strength, awareness and harmony in both mind and body.

KG1 children exhibited their physical abilities and gained a better understanding of their physical characteristics and abilities which they inquire in the ongoing theme- "Who we are".

Children learn to take care of their health and understand the importance of a sound mind in a sound body.

Balasana

This asana helps release tension in the chest and aid better sleep. It is very effective in relaxing the back and spine.

Vriksasana

This asana improves Balance and stability of legs. It helps strengthen the ligaments and tendons of the feet.

Potpourri

"Celebrations infuse life with passion and purpose. They summon the human spirit."

-Terrence E.Deal

A celebration can be a festive party commemorating some joyous occasion. And it is a special enjoyable event that people organize because something pleasant has happened. Celebrating as a group bestows a sense of belonging, something crucial to human fulfillment.

Halloween is an ancient Celtic festival that is celebrated on the last day of harvest in European countries. For years, Halloween has become a popular celebration in India as well. People party on the night of Halloween and ghosts, spirits, and dark academia remain the theme for the celebrations and party.

The children's day celebration across the country is recognized to raise awareness about the rights, care & education of children. Children's day is celebrated each year on November 14 as a tribute to Nehru. He was known for his affection for the kids. Children were surprised with the performance by teachers and enjoyed the whole event.

"The more you praise and celebrate your life, the more there is in life to celebrate."

-Oprah Winfrey

Learning Curve

"The beautiful thing about learning is nobody can take it away from you"

Learning things around us makes the children much more eager towards their understanding. In EVS, the kids are learning about the insects around them and differentiating it how useful and harmful roles they play in our daily life. Kids brought the pictures of insects and classified them into useful and harmful insects by making mobiles to showcase their understanding. The kids also walked around the campus to take a look into insects that they see in daily life.

"Children learn as the PLAY. Most importantly in PLAY children LEARN how to LEARN."

Pocket phonics

“Phonics is the combining of sounds and symbols. It opens the door of learning.”

Phonics helps children to learn how to read. It is important for children to learn letter-sound relationships because English uses letters in the alphabet to represent sounds. Children learn the sounds that each letter makes, and how a change in the order of letters changes a word's meaning.

One way of developing these skills is phonics. An essential way of helping children how to read, write and spell, phonics has grown in importance over recent years. It is a great teaching method as it helps simplify the English language and is perfect for young children. Here our tiny tots of KG1 enthusiastically participated in word mat to prove that learning is continuous process.

They enjoyed learning & reading via phonics kit & build a strong foundation in language. They involved in an interactive & a fun way to identify the word families. They engaged their super active brain in a productive way.

“Decoding is the ability to take letter-sound knowledge and be able to blend those sounds together to make words.”
